Shipping causes most of the delay

Avg days with seller vs. in shipping

Key findings

8.1% of orders arrive late. Late orders are rated **2.6** vs **4.3** stars.

Shipping drives the delay: late orders spend **25** days in transit vs **7** for on-time orders.

Delays spike at peak times: **14%** in Nov 2017 (Black Friday) and **21%** in Mar 2018.

Recommendation

Add carrier capacity before peak seasons and review carriers serving the Northeast and RJ.
